I'm OK with it if Colin is OK with it.

And this is a VERY unique situation as no other Regions have DI where 6 compressor stations have been permitted under a single syn minor permit so I'm not taking this to the wider national group for everyone to persevere on.

I might run it by Laurie Ostrand since she seems to find problems that I don't... stay tuned.

Subject: OOOOa

Hey Alex,

Brad Sohm from SWCA might contact you about OOOOa applicability for a facility. The permit has 6 compressor stations as requested by the facility all wrapped into one permit. They will be adding an engine to one of the facilities where we are interpreting this to be OOOOa applicable- under the permit, all 6 compressor stations would then be subject to OOOOa. He might be fishing for responses that support his thoughts of non-applicability. Let me know if you have any questions or want to chat.

Thanks,

Colin C. Schwartz
